

Darren Baldwin

Software engineer

EXPERIENCE

Full-Stack Software Developer

Adyptation - Part-time

January 2022 - Present - 3 Months, Cincinnati

Work on the Software Engineering team in an agile based environment. Created, reviewed, and maintained quality code. Work with a team to develop mobile and web based SaaS products using React-Native and Next.js. I Maintain the entire backend GraphQL and Node.js API. Authored documentation to provide insights on new features. Headed initial QA efforts through testing code, identifying bugs, and supporting users.

Indie Software Developer

Hobby

2014 - present - 7 years, Springboro OH

Built out numerous web applications and mobile apps using primarily React/Vue.JS with Node.js for web and swift or React-Native for mobile. I enjoy creating software to solve real-world problems for various clients and continue to learn throughout the process.

Customer Experience Adviser

Best Buy - Part-time

August 2021 - December 2021 - 5 Months, Dayton OH

Top ranked associate among 60 employees based on sales. Consulted right technology solutions to meet each customer's immediate and future needs. Asked to work full-time as a Geek-Squad Agent after just 3 months of work.
